

BEST MEDICINE IS PREVENTIVE MEDICINE!

This document is designed to provide clear and easy to follow policies and procedures for 2BWell group for re-opening its clinics to the general public during the COVID-19 global pandemic of 2020. This is an evolving process and we will make changes to these policies as we learn more about Coronavirus and the public policies for dealing with its pandemic. All 2BWell personnel and patients must follow these safety measures until a new policy is set in place.

❖ Protection = Prevention

- Protective gear:
 - All patients are required to bring and wear a mask at all times outside of their TX space.
 - All personnel working at 2BWell must wear a medically graded protective mask while tending to patients.

❖ Lobby etiquette and hygiene

- Keep people separated:
 - Patients need to wait outside until called/texted/signaled to enter when the lobby is empty.
 - 2BWell will provide clear signage on the doors, walls, and floors to help patients follow the social distancing and hygiene guidelines.

BEST MEDICINE IS PREVENTIVE MEDICINE!

- Hygiene practices.
 - We will wipe all surfaces on a regular basis and any surface after each touch. We will provide cleaning products and ask pts to wipe and clean all surfaces that they touch including in the bathrooms.
- Screen patients
 - We will be checking patients, staff, and providers' temperature if they start experiencing any flu-like symptoms.

❖ Scheduling

- 2BWell admin will work hard to accommodate all our patients scheduling needs. We haven't been completely closed and kept track of patients who might be in need of an urgent appointment and will prioritize based on our patients' needs.
- We continue to offer telemedicine to patients who are not feeling well or are not comfortable coming in for a physical visit.
